

BUSINESS CONTRACT TYPES

FLEXIBILITY FOR BUSINESS OWNERS

Business owners typically have four questions they consider prior to purchase:

- » Will this purchase affect my personal credit?
- » What is the best option to maximize my tax advantages and monthly cost?
- » Am I personally liable if an employee of my company is involved in an accident?
- » What options do I have to protect myself?

To alleviate these questions, Chrysler Capital offers many different contract options for FCA dealers and business consumers. These options provide flexibility for all types of businesses whether the company is established or just getting started.
